

THANUKA SACHITH

Software System Undergraduate

Kelaniya, Sri Lanka | +94 767 053 945 | thanukasachith1@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Systems undergraduate pursuing a Bachelor of Information and Communication Technology (Honors) at the University of Kelaniya, with hands-on experience developing full-stack web applications using JavaScript, React, Node.js, PHP, C#, and ASP.NET Core. Experienced in building RESTful APIs, designing relational databases, and developing responsive web applications. Familiar with software testing, API testing, Git-based collaboration, and Agile/Scrum practices, with experience taking projects from design through implementation and testing. Strong problem-solving abilities with a practical, product-focused mindset and a passion for building reliable and user-focused software solutions.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, PHP, SQL, C#
Web & Frameworks	React, Node.js, Express.js, ASP.NET, HTML/CSS, Prisma ORM
Databases	PostgreSQL, MySQL, MongoDB, SQLite, SQL Server
Tools & Practices	Git/GitHub, Postman, VS Code, Agile/Scrum, RESTful APIs, OOP, UML

PROJECTS

E-Learning Platform - Assignment & Grading Module | *React, Node.js, Express, PostgreSQL, Prisma*

- Owned the Assignment Dropbox and Student Submission/Teacher Grading Dashboard module end-to-end (backend + frontend) as one of 5 members on a full-stack LMS with course management, quizzes, and discussion forums.
- Designed and implemented RESTful API endpoints with Prisma ORM against PostgreSQL, and submitted all changes through peer-reviewed pull requests in an Agile team workflow.

PROJECT LINK : [E-Learning Platform](#)

IT Service Desk Management System | *C#, ASP.NET Core, Entity Framework Core, SQL Server, React*

- Developed a role-based IT service desk application for managing support tickets, assignments, priorities, statuses, and comments.
- Implemented RESTful APIs with JWT authentication and role-based authorization using ASP.NET Core and Entity Framework Core.
- Designed and integrated a relational SQL Server database with a React-based frontend for ticket management and dashboards.

PROJECT LINK : [IT Service Desk](#)

CSE Stock Market Trend Analyzer | *Python, Requests, openpyxl, Excel*

- Built an automated Colombo Stock Exchange tracker that pulls live prices for 10 stocks daily from the CSE.lk API and writes them into a growing Excel price history with duplicate-run protection.
- Computed 7-day/20-day moving averages and BUY/SELL crossover signals via Excel formulas, feeding an auto-updating dashboard with charts and top gainers/losers KPIs; scheduled to run unattended via Windows Task Scheduler.

PROJECT LINK : [CSE Project](#)

Canteen Ordering System | *PHP, MySQL, JavaScript*

- Developed a multi canteen food ordering platform with authentication and role-based order management.
- Designed the MySQL database schema and developed administrative dashboards for menu and sales management.
